Abstract	<p>Many elder couples live in some local town. The town has the problem of population decline. When their children will not come back their home town, the town will be extinction with the death in their parents. In particular, elder women, who live in local town and lost her husband, got some rights in rite or tomb management, because it is affected by the population decrease in local town.</p> <p>On the other hand, that women will die in the future. But many cities or towns don't have administrative services or consultation place about tomb management. So, the women use the service of private sector in tomb management, for instance, clean their tomb, flower management, and so on.</p> <p>The author concluded 3 points.</p> <p>The 1st point is that there are problems with the management of the tomb at the matrilineal family.</p> <p>The 2nd point is that influences of population decline have no manager of the tomb in the future.</p> <p>The 3rd point is that we will make some social supporter about tomb management and religious advice.</p>
