Abstract	<p>"KOTO" is a perspective to recognize a whole experience happening around a subject in contrast with "MONO" that recognize pieces of experience objectively, suggested by bin Kimura. This study proposes a P.E. classes design based on the perspective of "KOTO".</p> <p>By referring "KOTO" idea, teachers can, provide a whole play experience rather than skill training classes, and organize the order of how teachers design classes.</p> <p>Because of the consideration, it is revealed that the following three points were required to provide the P.E. classes, (1) What every player is playing over in each sport. (2) Who expected to play. (3) What the equipment, places and rules needed, in addition, skills to experience deeper fun.</p>
keyword	Pedagogy of Physical Education Developing Classes Play
