Title	Attitudes toward COVID-19 Measures among Aspiring Childcare Professionals — Reflections at a Post-Practicum Symposium —
Author	Kyoko SAKURAI
Affiliation	Department of Children's Studies, Faculty of Children's, NishikyushuUniversity
Abstract	<p>The spread of COVID-19 has greatly affected the professional training of students aspiring to work in childcare in terms of their practical training at childcare institutions. How have the attitudes of these students changed upon going through their practical training while adopting various countermeasures in the midst of the pandemic? This study focuses on and examines the students' responses during a reflective symposium held after their practical childcare training in AY2021.</p>
keyword	COVID-19 Control measures for infectious diseases Practical childcare training
