Title	A Study on Investigation Method of Self-Esteem in Students with intellectual disabilities.
Author	Rimi NAKAMURA, Tsunenobu SANADA
Affiliation	Special Needs school attached to Tokyo Gakugei University, Faculty of Children's Studies, Nishikyushu University
Abstract	<p>The purpose of present study was to investigate the evaluation method of the self-esteem for students of a junior high school for special needs education. In this study, a Rosenberg Self Esteem Scale was conducted for students with intellectual disabilities through semi-structured interview method instead of the questionnaire method. Based on the result of present study, the method and the contents about the survey of self-esteem in students with intellectual disabilities were discussed.</p>
keyword	intellectual disabilities , Self-Esteem
